**DETAILED ACTION**  
**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Karl Bozicevic on August 09, 2010.

The application has been amended as follows:

1. In claim 51, line 1, after "wherein the" delete "formulation comprises" and insert "antidepressant is".
2. In claim 52, line 1, after "wherein the" delete "formulation comprises" and insert "antidepressant is".
3. On pg. 12 of specification, after line 8, insert "Brief Description of Drawings".
4. On pg. 12 of specification, after line 27, insert "Detailed Description of Drawings".

**EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

Applicant's amendment to the claims filed June 18, 2010 has been fully considered. In light of the Applicant's amendments and the Examiner's amendment, claims 47-52 are allowed and renumbered to claims 1-6.

In light of Applicant's amendment of claim 47, the 112 second paragraph rejection is withdrawn.

In light of Applicant's amendment and the Examiner's amendment, the 103 (a) rejection of claims 40, 42, 44-48, and 50-52 as being unpatentable over Ni et al. U.S. Application No. 6,608,101 B1 in view of Chen et al. U.S. Application NO. 6,248,528 B1 and in further view of NY Times (December 1997, pgs. 1-3) is withdrawn.

The following is an examiner's statement of reasons for allowance: Claims 47-52 are drawn to a method of treating cystic fibrosis comprising administering to a patient by inhalation, a formulation consisting essentially of a carrier and an antidepressant selected from the group consisting of a tricyclic antidepressant and a tetracyclic antidepressant. There is no prior art disclosing the applicant's method of treatment, particularly utilizing a formulation wherein the sole active agents are tricyclic or tetracyclic antidepressants. The closest art is Ni et al. (6,608,101 B1) in view of Chen et al. (6,248,528 B1) and in further view of NY Times (December 1997, pgs. 1-3). Ni et al. teaches the use of compounds of formula I for inhibiting VCAM-1 and disorders

associated with VCAM expression including cystic fibrosis. Ni et al. further teach that said compounds of formula I can be combined with secondary biological active agents such as amitriptyline or tricyclic antidepressants. Ni et al. do not teach the sole use of amitriptyline or tricyclic antidepressants for the treatment of cystic fibrosis as recited in claim 47. Neither Chen nor NY Times cure the deficiencies of Ni et al. Since the present claims require tricyclic antidepressants or tetracyclic antidepressants to be the sole active agents in the formulation of claim 47, and Ni et al. alone do not render obvious the particular formulation of claim 47, claims 47-52 are therefore allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Claims 47-52 (renumbered 1-6) are allowed.
